## Professional experience

### Web developer / EVO Studios

2015 - ONGOING

- Employed as **lead developer**, I'm developing websites, landing pages, e-commerce and applications in full collaboration with the UI/UX Team
- **Involved in entire projects lifecycle:** client meeting, project analysis and requirements definitions, build and deploy and maintenance
- **Regularly contributing to short and medium term planning**, projects deadline **definitions** and technical **analysis**
- Junior team members support and coaching
- Built a custom WordPress starter theme used by teams for projects: based on MVC pattern, ACF, Twig template engine, modular Javascript and modern build tools (gulp/webpack)
- **Mentorship on new technologies** now used by teams: Prestashop, Vue.js and Nuxt.js

### Web developer / S4win s.r.l.

2012 - 2015

- Employed to **built websites and e-commerce** projects using mainly **Drupal CMS**
- Involved in all tech stages of projects (from analysis, to coding, release and maintenance)
- Promoted and implemented the **complete replacement of the CMS used by the company to build projects** (from an old-fashioned java-based CMS to Drupal CMS), supporting and coaching team: reduced projects development time of 50%, and increased clients satisfaction

### Sysadmin / S4win s.r.l.

2010 - 2012

- Setup and maintenance of a physical and virtualized linux servers used for various network services: dns, email, hosting, backup
- Designed and implemented migration from physical to virtualized servers.

## Education

### Bachelor Degree in Computer Science Engineer

POLITECNICO DI MILANO / 2001 - 20014

Thesis: Design and implementation of an high-availability hosting web platform based on Linux OS

## Languages

- Italian: native language speaker
- English: fluent in reading, writing, competent in listening and speaking
